**Food Safety Statement:**

At Pierre, food safety is managed using HACCP (Hazard Analysis and Critical Control Point) programs. We treat every change to ingredients or processes as a potential food safety risk and we perform a hazard analysis with each change to assure continuing safety. We verify that our actions are in alignment with our words by using outside auditing agencies (SQF 2000).

Our products meet or exceed customer expectations because they are designed with the customer in mind. Because customer requirements sometimes change, quality standards and procedures are constantly being reviewed to ensure that they are up to date. We have a company wide commitment to quality, which is integral to our business culture. Quality will remain our top priority and we will strive to provide quality in our products.

Shelf Temp: 0°F

Shelf Life (days): 365

**Preparation**

Conventional Oven: Preheat oven to 375°F. Bake frozen product for 11 - 13 minutes or until internal temperature reaches 165 degrees F. Convection Oven: Preheat oven to 350°F. Bake frozen product for 8 - 10 minutes or until internal temperature reaches 165 degrees F. Microwave: Cook frozen product on high power for 2 - 4 minutes or until internal temperature reaches 165°F.

This product is designed to be heated to 165°F before serving. Verify internal temperature with a meat thermometer, as cooking times will vary due to differences in appliances and weight of product. Always wash work surfaces and your hands before handling food. Keep raw meats and vegetables separate from cooked product. Freeze or refrigerate leftovers immediately.
